

Company Profile

JMD design is an award winning practice that provides a full range of landscape architectural services with an emphasis on the construction of high quality design. The three working directors have over 20 years experience in the profession, and lead a dedicated and creative team.

The practice has a strong commitment to achieving both site specific and environmentally responsible design solutions. We actively pursue the application of sustainable development principles in all our design projects. JMDD is particularly experienced in large scale public and private projects working as either project lead consultant or sub-consultant as part of a multidisciplinary team.

Services provided include:

- Landscape Design
- Landscape Documentation
- Contract Administration
- Urban Design
- Master Plan Reports
- Landscape Rehabilitation
- Vegetation Management Plans

JMDD has 8 landscape architects, 1 technical officer, drafting and administration staff.
